Comments:	
This comment relates to the Durham/Orange County (NC) Light Rail project object to the planned Farrington Road ROMF facility because it poses—safety hazards for the surrounding neighborhoods and for the elementary school located right next to it (within 0.25 miles).  The ROMF site is planned to hold large quantities of controlled fluids, including 1,000 gallons of used oil. Some of these fluids pose fire or—explosion risks. The fluids would have to be hauled to and from the site by truck, posing further safety concerns. All of this is supposed to happen in the middle of a residential area.
