Comments:
This comment relates to the Durham/Orange County (NC) Light Rail project.  I object to the planned Farrington Road ROMF facility because the existing noise and vibration study was incomplete. Even its October 2018 update does not include homes in the adjacent Cupl Arbor subdivision that are located within 200 feet of the site. It also fails to account for spikes in noise which will occur in the middle of the night as trains are moved around for maintenance.
